L3 ANSWER 10 OF 10 CAPLUS COPYRIGHT 2008 ACS on STN  
AB Metal complex dyes dissolved in mixed solvents containing fungicides were used for staining and preserving wood. A typical fungicidal stain contained Phthalocyanine blue [147-14-8], chlorinated benzenes, machine oil, alkyd resin, pentachlorophenol [87-86-5], and  $\alpha$ -chloronaphthalene [90-13-1].
